

The Gates to Another Dimension are OPEN!

Prosperity Virtual Ashram is Here

This past century has witnessed a proliferation of invitations to visit the "Magical Universe." From secret societies to mail order magic and pop positivity, we have lived lifetimes in context of spiritual "supply and demand." Some innate hunger for the BEYOND stirs and we find ourselves at the Carnival, the ultimate thrill announced at every turn. Very quickly, we find ourselves surrounded by mountains of books, memories of seminars and escalating debt. The young searching soul blinks and becomes the aged one, careening toward the Death Door accompanied by confusion, disillusionment and hope. Our roller coaster crashes through the yawning mouth of Santa Muerta.

As her teeth close behind us and shut out the sun, we hear her voice: "Better luck next time!" Is this the best we can do? Forget how many angels can fit on the head of a pin. How many YEARS does it take to learn levitation, astral projection and remote healing? How many lifetimes does it take to be LIBERATED?

What if I told you that all of this and much more could be had right NOW? Perhaps you are shaking your head. Surely this is another gimmick, a snake-oil sales pitch.

Everyone you meet in this "game" is operated by a real person in the world. It is no exaggeration to say you can do ANYTHING in this world. You can walk about, talk, fly, eat, dance, sail boats, have sex, work, sleep, fight, read, play instruments and so on. This immediately begs the question: why would I want to navigate through such things in a "virtual world" when I am already dealing with the same stuff HERE?

For many, Second Life functions as a "Mask." A defeated human life can become superheroic. You don an idealized avatar and direct your fantasies. Too shy to ask a girl on a date? In Second Life, you're Don Juan. 98 pound weakling? You're a click away from being Charles Atlas!

You (quite reasonably) want to know the bottom line. How much does this cost? The answer? Nothing. At least not in terms of the monetary currency you are accustomed to thinking in. It DOES demand a price and this price is your participation. If you have caught a glimpse of the Nature of Being Human (and seen its inevitable collapse into decay), you may be ready to "gamble a stamp" and step up to the Table. Let us simply say: it is our observation that people will part more freely with their cash than their SELF. For those with ears to hear, trust. We are hinting at a "swap" here. This is an INVESTMENT. Pay out one Self with an eye to a sevenfold return.

But perhaps we are getting ahead of ourselves here. You want to simply step on through and know, firsthand, the veracity of a life beyond the organic form, a reality which is bigger than that apprehended through your fading senses.

This is here. It is free. And we are here to show you the DOOR!

Second Life. Surely you've heard of this? An online virtual reality in which you can control a person you create (commonly called an "Avatar"). This person can wander through endless worlds, meeting and engaging with thousands of people.

But this is not why we are here.

There is a very special place in the Second Life Universe which is called the "Prosperity Ashram." This is a very powerful and highly transformative zone. You do not come here to indulge in KGT's (Karmic Gravitational Tendencies). Your avatar is not a "Mask." In this space, one's avatar is a co-worker, a unique entity born into virtual space (which is as real to IT as your physical world is to YOU!). To enter Second Life via Prosperity Path is to establish a link with what has been called the "Higher Self." It is easy to think "Oh, this is just video-gaming." In truth, it is your Next Step in Evolution. How you handle this scenario is up to you.

Not so long ago, we would need to travel considerable distances to attend group gatherings and meetings to connect with our "core group." For some, this would entail significant expenditure. For others, it would simply be out of the question. Dreams of remote spiritual retreats would remain just that: a romanticized idea of a place one would never visit. We are now at a point in history where you can make this voyage in a matter of minutes.

Furthermore, the place you are being invited to has remarkable elements and potential which NO earthly Ashram can boast. Lovingly constructed for the Benefit of All Beings, the Second Life Prosperity Ashram is something of a "Living Louvre" for the Waking State. Here you will find MILES upon MILES of land filled with structures, spiritual training tools and the company of others enthusiastically engaged with what Buddhists have called the Bodhisattva Path. You can step right into this and do so RIGHT NOW! Skydive, fly the Red Baron, practice Tai Chi, ignite Chakras! Meditate, dance, visit Ancient Historical Sites! Join others in group discussions, partake of music and comedy, sail the seas!

ALL of this is here and now.

PVA (Prosperity Virtual Ashram) is available world wide at the speed of the internet. Below is a partial list of activities available in the Ashram. While it is definitely not complete, it will give a good idea of what's available.

We are in this space and working daily. You will be warmly welcomed as you enter a shared space connecting into your needs, gifts and goals! The cost? As we stated above, you pay with your person, your presence and ability to participate. Everyone has vital elements of the heart to share and, if you are reading these words, we most assuredly have need of your contribution! How to begin? Simply visit www.seconddlife.com and sign up.

This is free and you will be guided through the process of setting up your virtual persona, your "Avatar." From here, select the location "prosperity/" (please include the backslash) and you will be in this space we have described. If you find yourself bewildered, we are here to help. Visit "Prosperity Path" on Facebook and ask for any help you may need.

This is telepathy and astral travel made manifest in the computer age, an ancient dream realized! From so many diverse points on this globe called "Urth," we may come together regardless of external circumstance. There is much more to this phenomenon than connecting by computer, just as there is so much more to our incarnation in bodily form than most people realize. But it starts HERE. Sign up, step in and make contact with your Sangha (Spiritual Community). We've been waiting lifetimes for this!
